

2023 SE Buck Test Greene Co, MS

Consignors, attached is the full final index rankings in every category, the final overall index rankings, and a supplement of the data collected on test this year. We appreciate all of the producer support for this test, and the efforts of MSState Extension and Faculty. We're looking forward to see the test evolve in the future.

~Southeast Buck Test Committee

Jeff Lamote, Joe Knetter, Dewayne Smith, Daryl Byrd, Pat Larr, and

Jarred Dennison

The SE Buck Test in Greene Co, MS commenced on July 24th. There were 81 bucks to start the test, 44 in age group A(12/22/22-2/5/22), and 36 in age group B(2/8/23-3/28/23). Of the 81, there were 19 bucks to cross the deworming threshold, 8(18% of group) in group A and 11(30.5% of group) in group B. Three of the 19 died, leaving 78 living bucks at the off test date of September 29th. Once the test was completed there were 8 more bucks to die due to various causes, 11 in total, equaling a death loss of 13.6%. Of the 12, 6 were attributed to parasitism, accounting for 7% death loss, with the remaining 6 being indeterminate.

The avg FEC at test start on July 24th for group A was 135.23epg and 154.05epg for group B. The avg FEC at off test on September 29th was 1845.51epg and 2815.71epg for group B. The avg FEC throughout the test was 841epg for group A and 908epg for group B. The high avg FEC for group A was 2375epg and the low avg FEC for group A was 175epg. The high avg FEC was 2075epg for group B and the low avg FEC for group B was 117epg.

For final rankings, ties are broken by ADG.

The avg weight at test start on July 24th was 50.45# for group A and 44.38# for group B. The avg weight at off test on September 29th for group A was 60.60# and 52.43# for group B. The avg ADG for group A was .147# and the avg ADG for group B was .114#. The high ADG for group A was .239# and the low ADG for group A was .060#. The high ADG for group B was .224# and the low ADG for group B was -.209#.

For final rankings, ties are broken by FEC.

The avg adj REA at test start on July 24th was 1.32 in sq for group A and 1.49 in sq for group B. The avg adj REA at off test on September 29th for group A was .884 in sq and .811 in sq for group B. The high avg adj REA for group A was 1.57 in sq and the low avg adj REA was 0.78 in sq. The high avg adj REA for group B was 1.63 in sq and the low avg adj REA was 0.84 in sq.
